- Member of the Iona Computer Science Club

### Relevant Coursework

Programming In UNIX Environment, Data Structures & Algorithms, Computer Science I & II, Database Design & Implementation, Computer Architecture & Organization, Website Design

## PROJECTS

---

### Blue Jay Cafe

*React, HTML5, CSS, TypeScript, Vite*

A front-end focused web development project that aims to function as a mockup website for a trendy NY cafe. This website is fully responsive and includes an array of features, such as a shopping cart system, filterable menus, infinitely scrolling images, and more. All of these features are accessed through a sleek, modern, and accessible UI.

### AJA Construction Co.

*PHP, MySQL, HTML5, CSS*

A back-end focused web development group project that aims to function as a mockup website for a construction company. This website allows the user to manage a database of company tools, jobs, projects, employees, and materials.

## SKILLS

---

**Primary Technologies:** React, TypeScript/JavaScript, HTML5, CSS, Java, mySQL, PHP.

**Secondary Technologies:** Python, Linux, C, Git, Visual Studio.

## WORK EXPERIENCE

---

### Century Management Services Inc.

Apr 2021 - Sep 2022

*Concierge*

*Manhattan, NY*

- Well versed in communication, retained a friendly atmosphere yet remained stern and professional. Did not let tenants bend the rules in their favor.
- Continuously managed and organized deliveries and packages, requiring a great focus to detail.
- Exhibited a "Count on Me" Culture, was responsive to the needs of the tenants, guests, and all others we contacted on the job. Showed respect and provided a great experience
