• Made Dean's list for outstanding semesters.
• Member of the Iona Computer Science Club
Relevant Coursework
Programming In UNIX Environment, Data Structures & Algorithms, Computer Science I & II, Database Design & Implementation, Computer Architecture & Organization, Website Design

PROJECTS

Blue Jay Cafe
React, HTML5, CSS, TypeScript, Vite
A front-end focused web development project that aims to function as a mockup website for a trendy NY cafe. This website is fully responsive and includes an array of features, such as a shopping cart system, filterable menus, infinitely scrolling images, and more. All of these features are accessed through a sleek, modern, and accessible UI.

Spin City
PHP, MySQL, HTML5, CSS, Bootstrap
A fullstack project representing a fictional online physical music vendor. Includes an interface for employees and admins to add, edit, or delete records. Priority is put on backend security, with password hashing, prepared statements, and extensive filtering.

SKILLS

Primary Technologies: React, TypeScript/JavaScript, HTML5, CSS, Java, mySQL, PHP.
Secondary Technologies: Python, Linux, C, Git, Visual Studio.

WORK EXPERIENCE

Century Management Services Inc.   **Apr 2021 - Sep 2022**
Concierge   *Manhattan, NY*
• Well versed in communication, retained a friendly atmosphere yet remained stern and professional. Did not let tenants bend the rules in their favor.
• Continuously managed and organized deliveries and packages, requiring a great focus to detail.
• Exhibited a "Count on Me" Culture, was responsive to the needs of the tenants, guests, and all others we contacted on the job. Showed respect and provided a great experience
